

ANEESULLAH

Data Analyst | Junior Data Scientist

Orakziyan456@gmail.com | +971 56 9182005 | Sharjah, UAE

Professional Summary: Results-driven Data Analyst with hands-on expertise in ETL pipeline development, SQL data warehousing, and machine learning. Demonstrate improvements in data quality by 35% through advanced preprocessing techniques. Translate complex datasets into actionable insights using Python, SQL Server, and statistical analysis. Collaborate with cross-functional teams to deliver AI-powered solutions and produce technical documentation.

SKILLS

Data Analytics: SQL, ETL/ELT Pipelines, Data Warehousing,

Programming: Python (Pandas, NumPy, Scikit-learn), SQL, Flask, Streamlit Databases: SQL Server, MySQL

Machine Learning: Supervised & Unsupervised Learning, Feature Engineering, Model Evaluation, XGBoost

Visualization: Excel (Advanced, DAX, Power Query) NLP: spaCy, Transformers (BERT)

EXPERIENCE

Artificial Intelligence Intern

Cedrus Group Pvt. Ltd. — August 2024 – jan 2025

- Completed an Artificial Intelligence internship, where I gained hands-on experience with Python and libraries like NumPy, Pandas, and scikit-learn, developing predictive models and deriving actionable business insights from data.

Machine Learning Intern

NovaXccelerate — March 2024 – jun 2024

- Completed a machine learning internship at, where I gained hands-on experience with Python and libraries like NumPy, Pandas, and scikit-learn, developing predictive models and deriving actionable business insights from data.

Education

Bachelor of Science in Artificial Intelligence

Hazara University | Graduated 2025 | Coursework: Machine Learning, Data Mining, Database Systems, Statistics

Key Projects:

Modern SQL Data Warehouse/ SQL Server, ETL, Medallion Architecture

- Architected enterprise data warehouse with Bronze/Silver/Gold layers; built automated ETL pipelines for daily incremental loads.
- Designed dimensional models with SCD Type 2, optimized queries, and achieved sub-second performance on 100K+ records.

CampusGPT — University Assistant/ Python, NLP, Flask, spaCy, BERT

- Developed an AI chatbot handling 500+ queries using spaCy and transformer models, achieving 85% accuracy. Built a RESTful API backend with Flask; designed a responsive frontend, improving user experience by 30%.

Portfolio Website

- Developed a fully animated personal portfolio website using React and Tailwind CSS; the project is fully automated, responsive, and showcases my work with smooth animations and interactive elements.

Additional Information

Languages: English (Fluent), Urdu (Native), Pashto (Native)
